

Now, Rigby puts precise ELL assessment data at your fingertips!

Use the power of Rigby's *ELL Assessment Kit Data Management Tool* to track progress and meet your ELL students' individual needs:

- Differentiate your ELL instruction by recording and monitoring student progress in each of the four domains:
 - Listening
 - Speaking
 - Reading
 - Writing
- Sort data for instructional focus and placement
- Track performance at individual, class, school, and district levels
- Generate easy-to-read graphs and reports

The *Data Management Tool* helps you quickly target your teaching to individual learning gaps—all year long. With this regular, specific feedback, students can see what they need to learn. Frustration and failure are replaced by motivation and continuous improvement.

Monitoring progress in language and literacy development has never been easier or more effective!

For a demonstration of the *Rigby ELL Assessment Kit Data Management Tool*, call a Rigby representative at 1-800-531-5015.
